

CONFIRMING ACTOR-DIRECTOR COMMUNICATION

After completing the Actor installation process, verify the Actor and Director can communicate.

To Confirm Communication

1. Launch the Director.
2. Verify you see the Actor in the **Map**.
3. Go to **Settings > Director Settings**. The System Settings page opens.
4. Verify the Actor is present in the Actor Versions list.
5. Click **Check Version** and verify you receive the "**Version pulled from Actor name: version**" message.
6. Select **Environment > Actors** and verify the Actor is listed.
7. Click **Edit** next to the Actor and verify you see the expected information:
 - The appropriate Interfaces and routing
 - Information regarding what the Actor can talk to
 - Supported capabilities
