

JULY 19, 2022 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Versions

- Mandiant Advantage Threat Intel (MATI) v2.5.16
- Mandiant Advantage Digital Threat Monitoring (DTM) v1.50.7

New in this Release

MATI

- The Indicator widget in the Actor and Malware detail pages now displays the number of files instead of hashes for better accuracy.
- On File Analysis page, the Investigation Requested link that replaces the Ask an Expert link after a case is opened now displays a modal popup with the case details.
- DTM Admin role is no longer incorrectly displayed as User role in grid.

DTM

- If an Organization has access to DTM, users can access Research Tools regardless of user role.
- Monitor List and Monitor filter in the Alert List view now display in alphabetical order.
- Changed order of Alert List filters to--
 - Status
 - Alert Type
 - Monitors
- Enhanced user interface--
 - Updated Alert List and Research Tools displays.
 - Updated timestamps in Alert List and Test Monitor views.
- IC-Score icon is now displayed within Email Notifications.
- Bulk select is now supported on Alert Details page.
- Added ability to test Monitors.

Bug Fixes

MATI

- Filters on Indicators tab of Actor and Malware pages no longer impact the Indicator donut chart.

DTM

- Improved error handling by replacing general error messages with more detailed error messages.
