

AUGUST 4, 2022 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Versions

- Mandiant Advantage Threat Intel (MATI) v2.5.22
- Mandiant Advantage API (MAAPI) v1.30.5
- Mandiant Advantage Digital Threat Monitoring (DTM) v1.56.1

New in this Release

- **MATI / MAAPI**
 - Users will now see a green icon next to the service requested label on the Ask an Expert Service Requests table when a case was recently updated.
 - Removed extra commas and whitespace on the Indicator table.
 - Existing API docs site api.advantage.mandiant.com now points to the new docs portal at <https://docs.mandiant.com/home/api>.
 - Added Service Description link to documentation in the On Demand Analyst Support sub card.
- **DTM**
 - IC Score on Alert List page:
 - Now users can check the IC Scores on Alert list page with an option to filter the alerts with malicious IOCs. This will help the users to effectively triage, assess and mitigate threats by quickly accessing the alerts with high IC-Score.
 - Other UI Updates:
 - Ability to change the status of an alert in Alert Details Page
 - Timestamp format change on Alert list and details page
 - Additional tooltip to show the alert generated date when hovering the time on alert list and details page
 - UI updates on Research Tools list
 - UI updates on Alert list page

Bug Fixes

- **MATI / MAAPI**
 - EOD now displays the expiration date from the last unit purchased.
 - Users listed in the Email Report Visibility of an Ask an Expert case can now see the case details.
 - Email field disabled and cannot be changed within Delivery Profiles Create and Edit Screen.
- **DTM**
 - Users can no longer create a monitor without valid conditions.
 - Removed user alert checking before loading the Alert or Monitor tab.
 - Email Notifications toggle not working when creating/editing a monitor.
 - IC score drawer text issue with long string.
