

INDICATORS

Indicators allow security teams to focus on threats based on actionable intelligence from Mandiant. They are associated with specific individual and global campaigns, and related data is available at various locations in Mandiant Advantage Threat Intelligence (MATI).

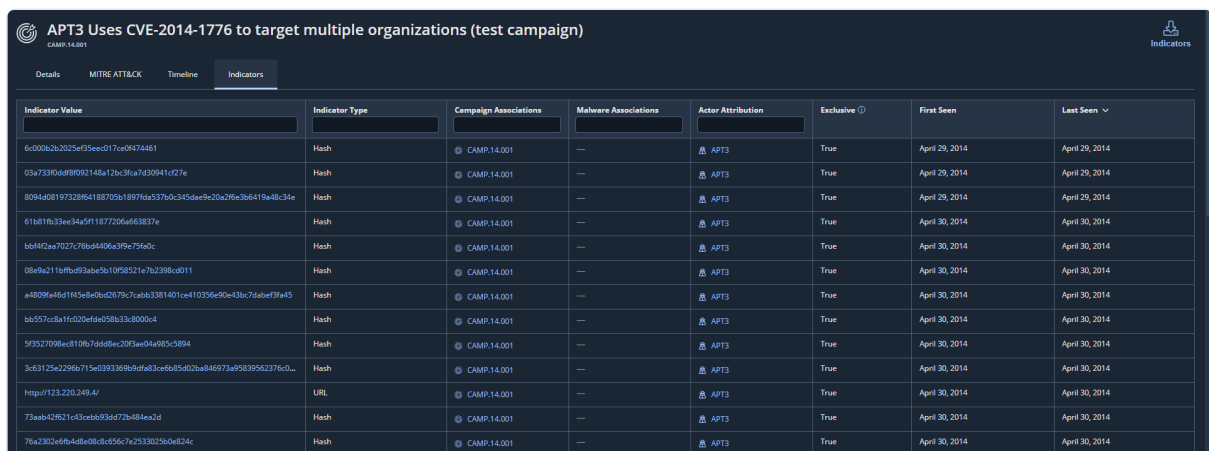

To Access Indicators Associated With a Campaign

1. Go to **Explore > Campaigns**.
2. (Optional) Use the search bar or filters, as needed, to narrow down the list of campaigns.
3. Click the campaign headline to open the campaign details. If there are indicators, a graph and an Indicators tab appear.

Indicators Graph on a Campaign Details Page

4. Click **Indicators** to open the table and view the indicator data, including campaign and malware associations.

Indicator Value	Indicator Type	Campaign Associations	Malware Associations	Actor Attribution	Exclusive	First Seen	Last Seen
