

OCTOBER 18, 2022 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Versions

- Mandiant Advantage Threat Intel (MATI) v2.9.0
- Mandiant Advantage Digital Threat Monitoring (DTM) v1.69.2

New in this Release

- **MATI**
 - Mandiant Breach Analytics for Chronicle is now accessible via the application switcher.
 - What's New page layout has been updated to include all relevant content for products.
- **DTM**
 - Real-time update on Domain Protection: Backend system has been updated to trigger a timely notification on typo-squatted domains. With this fix, users may receive two notifications:
 - without whois data, this alert will be triggered when we notice domain registration.
 - with whois data when it becomes available.
 - Backend has been optimized to prevent duplicate alerts for identical content.
 - UI enhancements:
 - Added Search Collection Type to Terms list when editing a monitor condition.
 - Updated Research Tools UI to allow filtering by Threat Type.
 - Alert Details Page: Removed entities from Matched in the Content section if they are not in the Alert body.

Bug Fixes

- **DTM**
 - Forum Browsing no longer loads external content from potentially hostile targets.
 - Alerts that are Shop Listings now display highlights for the matching term.
 - Minor UI bug fixes were applied.
