

## PROXY ALLOW LIST REQUIREMENTS

The following tables show URLs that you must add to your environment's proxy allow list. This step is necessary for Mandiant Security Validation (MSV) and Mandiant Advantage Security Validation (MA-SV) to function properly in an environment that proxies traffic.

These URL entries must be configured to allow traffic on port 443 over HTTPS.

### Proxy Allow List for MSV

Description	URL Value
SSO login validation	<ul style="list-style-type: none"> <li>• app.validation.mandiant.com</li> <li>• login.mandiant.com</li> <li>• auth.mandiant.com</li> </ul>
Integrations Connector Client	<ul style="list-style-type: none"> <li>• integrations.mandiant.com</li> <li>• integrations-bridge.mandiant.com</li> </ul>
Updater service	<ul style="list-style-type: none"> <li>• update.validation.mandiant.com</li> <li>• update.verodinservices.com</li> </ul>

### Proxy Allow List for MA-SV

Description	URL Value
SSO login validation	<ul style="list-style-type: none"> <li>• app.validation.mandiant.com</li> <li>• login.mandiant.com</li> <li>• auth.mandiant.com</li> </ul>
Integrations Connector Client	<ul style="list-style-type: none"> <li>• advantage.mandiant.com</li> <li>• integrations.mandiant.com</li> <li>• integrations-bridge.mandiant.com</li> </ul>
