

FEBRUARY 24, 2023 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Versions

- Mandiant Advantage Digital Threat Monitoring (DTM) v1.97.13

New in this Release

- Alert Severity & DTM Dashboard Widgets features designed to help improve Threat Intel analyst efficiency by providing better insights into deep, dark web data.
 - Alert Severity benefits:
 - **Improved Efficiency:** Users can now prioritize alerts based on machine learning driven severity levels—from low, medium to high. This reduces the amount of time analysts spend triaging alerts.
 - **Enhanced Visibility:** Users can quickly filter the most severe alerts, which may require immediate attention.
 - DTM Dashboard Widgets benefits:
 - **Improved Data Visualization:** Users can visualize DTM Alerts data by adding the following widgets:
 - Top Actors in DTM Alerts
 - Alert Volume by Monitor (Line & Stacked)
 - Alerts by Threat Type
 - Alerts by Collections Type
 - Research Tools Search Widget
 - **Improved Decision-making:** With more visibility into DTM data, users can make more informed decisions, identify areas requiring attention, and prioritize tasks accordingly.
- UI updates to improve user experience
