

## PRODUCT UPDATE 5.10.1.2 - MARCH 13, 2023

The Mandiant Advantage Security Validation (MA-SV) team is pleased to announce version 5.10.1.2 of the MA-SV platform.

### Bug Fixes

- Fixed an issue where the Add User button was missing and customer admins couldn't assign groups to their users before the initial login
- Fixed a bug in the MSV to MA-SV migration process where issues might occur if the on-prem Director was migrated more than once
- Implemented some performance improvements for the remote integrations API and Actor registration
