

WORK WITH JOB RESULTS FROM ASSESSMENTS

This feature is released as a Public Preview.
 Pre-GA products and features are available "as is" and might have limited support. For more information, please contact your TSC, your CSM, or go to [Support](https://docs.mandiant.com/home/mandiant-support-cases).
[\(https://docs.mandiant.com/home/mandiant-support-cases\)](https://docs.mandiant.com/home/mandiant-support-cases)

As an administrator or power user, you can do the following from the Assessment All Results tab:

- View the Job Results
- Publish any or all of the Job results (if a preconfigured Pipeline is available)
- Build a Job Summary Report from the any or all of the Job results

View Job Results from Assessment Content

1. Go to **Library > Assessments**.
2. Open the specific Assessment from the list, then click the **All Results** tab.
3. In the relevant Job result entry, select **more** \therefore **> View Job Result**.

The screenshot displays the 'Job Results' page in the Mandiant Security Validation tool. At the top, there's a navigation bar with options like 'Analyze', 'Environment', 'AEDA', 'Library', 'Jobs', 'Settings', 'User', and 'Organizations'. Below this, the 'Job Results' section is titled 'Lorem Ipsum Dolar (Job 136003)'. It features a table with columns for 'STATUS' (Completed), 'PROGRESS' (Completed Group), 'SUBMITTED AT' (2023-01-09 14:58:47 EST), and 'SUBMITTED BY' (Scheduled Process). Below the table, there's a section for 'ASSESSMENT' (My Assessment Name Lorem Ipsum) and 'SECURITY TECHNOLOGIES' (No Security Technologies detected). A 'STAGE OF ATTACK' progress bar shows stages: Recon, Deliver, Exploit, Execute, Control, and Act on Target. An alert box indicates '1 Error Detected' for 'Group 0' with the message 'A104-149: Host CLI - Activate Administrator account' and 'Source Actor: User profile login failed. Please check your settings and try again.' The 'Job Actions' section shows 'Group 1 (1 Action)' with a filter for 'All Results' and a '1 Incomplete' indicator. At the bottom, there's a summary for 'A104-149: Host CLI - Activate Administrator account' with an 'Errored' status and '0 Events'.

Job Results for Content in an Assessment

4. To return to the Assessment view, click the link under the **Assessment** heading in the Job Results.

Publish a Single Job Result from Assessment Content

1. Go to **Library > Assessments**.
2. Open the specific Assessment from the list.
3. Select **All Results**.

4. In the row of the Job Result you want to publish, select **more**  > **Publish Job Result**.
5. Select the **Pipeline** drop-down value. The **External Reference** value is prepopulated, but you can manually change it if needed.
6. Select **Publish**.

Publish Multiple Job Results from Assessment Content

1. Go to **Library > Assessments**.
2. Open the specific Assessment from the list.
3. Select **All Results**.
4. Select the checkboxes next to the Job Results you want to publish.
5. Select **Actions**, then choose **Publish Selected**.
6. Select the **Pipeline** drop-down value. The **External Reference** value is prepopulated, but you can manually change it if needed.
7. Select **Publish**.

Build a Job Summary Report From Assessment Content Job Results

1. Go to **Library > Assessments**.
2. Open the specific Assessment from the list.
3. Select **All Results**.
4. Select the checkboxes next to the Job Results you want to build a Job Summary Report.
5. Select **Actions**, then choose **Job Summary Report**.
6. Interact with the report through the filters, as needed, and choose to save as a PDF and/or download images if you need to access the report details offline. See **Managing the Summary Report** (<https://docs.mandiant.com/home/msv-managing-the-summary-report>) for more information.
