

## PRODUCT UPDATE 5.10.5.0 - JUNE 9, 2023

The Mandiant Advantage Security Validation (MA-SV) team is pleased to announce version 5.10.5.0 of the MA-SV platform.

### General Enhancements

- Security enhancements

### Bug Fixes

- Fixed an issue that caused the ThreatConnect integration to hang when completing a sync
- Fixed an issue that prevented successfully creating actions from the File Library
- Fixed an issue where updating Tipping Point Signatures caused the Mandiant Advantage header to disappear
- Fixed an issue that caused matched Splunk ES notables to not always display properly on the Job Results page
- Fixed an issue where some Splunk queries were returning a 400 error
- Fixed an issue where the "Users - View" permission was not allowing users to see User Settings

The release notes for this update and others can always be downloaded from Mandiant's Documentation and Learning Resources Site (<https://docs.mandiant.com/home/security-validation-on-prem-and-saas>), which uses your Advantage account for authentication.
