

PRODUCT UPDATE 5.10.6.0 - JUNE 28, 2023

The Mandiant Advantage Security Validation (MA-SV) team is pleased to announce version 5.10.6.0 of the MA-SV platform.

Bug Fixes

- Fixed an issue where PCAP Actions were failing
- Fixed an issue where the default Security Technology logos were not always loading and visible
- Fixed an issue where Job notifications were still sending after notification formats or a notification profile were removed
- Fixed a cosmetic issue where the Mandiant logo was not loading on the Action content display page
- Fixed a cosmetic issue where an image was not loading properly on Actions detail pages

The release notes for this update and others can always be downloaded from Mandiant's Documentation and Learning Resources Site (<https://docs.mandiant.com/home/security-validation-on-prem-and-saas>), which uses your Advantage account for authentication.
