

SEPTEMBER 27, 2023 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Version

- Mandiant Advantage Threat Intelligence (MATI) v5.3.5

New in this Release

- **Explore Pages Consistency**
 - Moved the Malware **Recent Activity** widget from the dashboard to the Malware Details page and made it reusable.
- **Malware and Tools**
 - Users can now filter Malware and Tools by **Last Active Date**.

Bug Fixes

- **Campaigns**
 - **Date** and **Last Activity** time filters are now working properly in Campaign Explore sidebar.
- **Dashboard Widgets**
 - Widgets can now be saved in the **Manage Dashboard** console.
- **MATI Duet AI Search Summarization**
 - On/off toggle for AI Summary is now clearly visible.
- **Explore Actors**
 - Users are now redirected to the Explore page when they click **Back** after selecting an Indicator.
 - A loading spinner now displays to indicate when data is being fetched for the Validation tab on the Actors page.
 - Fixed issue that was preventing all actor group associations from displaying for some Actors.
- **Explore Pages Consistency**
 - Fixed pagination issue in Explore Dashboards.
 - Resolved responsiveness issues with **Take Actions** button on Campaign Details page.
 - Buttons on Actors page continue to display properly when there are several **Reported As** values.
 - **Indicator** widget now has a title.
 - Mitre Attack page no longer presents intermittent 404 error.
 - Added **View Selected Malware** tooltip to Explore Mitre Attack page.
 - **Actor Motivation** text now displays properly.
- **Reports**
 - Adjusted table padding in report tables.
 - Resolved issue that resulted in some reports not having a preview.
- **Vulnerabilities**
 - Fixed **Follow** button placement and spacing on Vulnerability page.
 - Published Date sorting now works for Vulnerabilities.
 - Resolved issues causing crash of some Vulnerability pages with a 404 error.
