

# MARCH 11, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

## New Version

- Mandiant Advantage Threat Intelligence (MATI) v5.20.0

## New in this Release

- **Duet AI Search:** Provides a powerful AI search tool that enables security professionals to use natural language queries to browse Mandiant content, and get AI-powered summaries for threat research exploration
- **Threat Profile\*:** Disabled follow functionality for Freemium users
- **Inconsistencies and Enhancements**
  - Set default sort to Last Seen on Malware Explore page
  - Replaced last remaining call from old redux store
  - Removed old redux stores and unused hooks / widgets

## Bug Fixes

- **Threat Profile\*:** Threat Profile layout picture now respects locale and does not display dates in US format
- Resolved issue that caused an error when viewing a report directly
- Returned to default styles on Account Settings tab
- When malware, CVE, and tool do not exist for an actor, the error message displays correctly in an Associations Details box
- No Data Available help text is consistent throughout the application

\*To be enabled in April, 2024
