

PRODUCT UPDATE 5.13.0.2 - APRIL 18, 2024

The Mandiant Security Validation (MSV) team is pleased to announce version 5.13.0.2 of the MSV platform.

Bug Fixes

- Integrations bug fixes and general stability improvements

Known Issues

- Local Event Filtering works as expected but is limited to Match Action, Match Integration, and Match Events (when the latter involves Raw Events). If a rule has a Match Event condition for any field other than Raw Event, the rule does not apply to Local Events. It only applies to events from standard local integrations in MSV.
