

APRIL 25, 2024 ASM RELEASE

New Field for Issue Exports

A `Uid` field has been added to Issue Exports. If you depend on a specific column order in relation to Mandiant Advantage Attack Surface Management (MA-ASM) Exports, consider this as you review exported data moving forward.

See [Exporting Search Results \(https://docs.mandiant.com/home/asm-export-search-results\)](https://docs.mandiant.com/home/asm-export-search-results) for a comprehensive list of fields associated with MA-ASM Issues, Entities, and Technologies Exports.
