

MAY 1, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Version

- Mandiant Advantage Threat Intelligence (MATI) v5.25.2

New in this release

- Removed Freemium experience:
 - Disabled Explore pages
 - Removed Access to Actors, Malware, Campaign details pages
 - Disabled Reports & Analysis
- Threat Profile updates:
 - Updated loading indicators across profile manager
 - Updated alignment and checkmark on shared drop-down component
- Updated Indicator page to accept an ID-based URL and redirect
- Updated Contact Us links
- Updated documentation host

Bug fixes

- Fixed an issue where the Your Threat Profile – Vulnerabilities section was unable to filter by name or description
- Fixed a Threat profile issue where a call to action to set up notifications was missing on change event stream when no change events shown
- Fixed an issue where users management in Mandiant Advantage was not reflecting the correct entitlement
- Debugged and fixed a Take Actions dropdown issue
- Fixed a Campaigns Explore issue where the date picker under Earliest Activity Date filter was not rendering the initial values coming from facets query
- Fixed a MITRE ATT&CK related issues where Previous and Next buttons were clickable even though they were hidden
