

MAY 8, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New Version

Digital Threat Monitoring (DTM) API v0.1.328

Bug fixes

- After the scheduled maintenance on April 18, 2024, some monitors were unintentionally disabled, thus causing customers to miss potential alerts. These alerts have been recovered and replayed for all affected customers, each tagged with "Recovered 2024-04-18".
