

MANDIANT HUNTING DASHBOARD

The Mandiant Hunting dashboard provides insight into the leads that Mandiant Threat Defense finds while conducting Threat Hunting operations. This dashboard helps users understand what is being found during Threat Hunting activities. The dashboard breaks down the leads found in hunting rules by various dimensions, demonstrating trends and remediation opportunities.

The Mandiant Hunting dashboard is a **curated dashboard** (<https://cloud.google.com/chronicle/docs/reports/native-curated-dashboards>) that is available through the Google SecOps platform.

Access the Mandiant Hunting dashboard in Google SecOps

1. Access Google SecOps.
2. Navigate to **Dashboards & Reports > Dashboards**.
3. Select the **Mandiant Hunting** dashboard from the list of Dashboards.

 You can search for this dashboard.
