

# JULY 24, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

## **New version**

Digital Threat Monitoring (DTM) v1.157.8

## **New in this release**

- The Compromised Credentials template is updated to support breach context.
- Added a button to export alerts from Alert List view.
- Added Published column to Compromised Credentials Alert Bucket view.

## **Bug fixes**

- Fixed an issue where the author of the message was being displayed as Unknown in the message content display.
- Fixed an issue where passwords for verified domains that were in upper case were not viewable.
