

## SEPTEMBER 25, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

### **New version**

Digital Threat Monitoring (DTM) v1.158.55

### **New in this release**

- Added support in Research Tools for finding Similar Documents.
- Added a group alerts filter toggle to the filter section of Alert tab and in the search bar dropdown.
- Added a direct Telegram channel link to Message alerts.
- When editing a Compromised Credentials or Data Leaks monitor, users are alerted if there are unsaved changes and they are trying to refresh the page or close the browser tab.
- Removed the Tweets filter from the Research Tools Collection Type section.

### **Bug fixes**

- Fixed an issue where the Create Monitor button wasn't redirecting to the monitor view.
