

DECEMBER 18, 2024 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

New version

Mandiant Advantage Threat Intelligence (MATI) v5.29.2

New in this release

- Added information about the new ServiceNow Integration for Vulnerability Response on the What's New Page.
- Added the migration message back in the EoD subscription card and makes it visible based on a feature flag. Once the migrations are completed, this message will be removed.
- Removed the Contact Us message and email address from the Analyst Access subscription card.
- Redirected the Explore page in the MATI header to VirusTotal versions.
- Added logic to redirect the user to the upgrade page when they request a report for which they do not have access.

Bug fixes

- Fixed an issue where Analysts Access subscription card was not displaying the expiration date if remaining units were zero, providing the user with no information.
- Fixed an issue where accessing the Exploits tab for some vulnerabilities was displaying "No data available" when the response had exploit data.
- Fixed an issue where in report 22-00027626, the user gets a 404 when clicking on the association Unc4373 (ISIGHT Partners).
