

# JANUARY 22, 2025 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

## **New version**

Digital Threat Monitoring (DTM) v1.170.0.1

## **New in this release**

- Added alert grouping for similar alerts. When users have multiple alerts in their alert list that are similar, these alerts are grouped together so that it is easier for them to be triaged.
- Added support for viewing of plain text passwords for compromised credential alerts if the Service URL is verified and there is no login domain present.
