

## LUCENE QUERIES FOR DTM ALERTS

When using Lucene queries to search DTM Alerts, only basic string queries are supported.

The following alert fields are available for Lucene searches:

- `doc_text`
- `doc_keywords`
- `monitor_id`
- `id`
- `title`
- `doc_ref.id`
- `tags`
- `tags.lower`
- `aggregated_alerts.id`
- `aggregated_alerts.monitor_id`
- `aggregated_alerts.tags`
- `aggregated_alerts.tags.lower`
