

# JULY 11, 2025 MANDIANT ADVANTAGE THREAT INTELLIGENCE RELEASE

## **New version**

Mandiant Advantage Threat Intelligence (MATI) v5.35.4

## **Bug fixes**

- Fixed an issue where the EOD and Analyst Access unit tracking system was not showing the correct values. These are temporarily hidden from the web interface.
- Fixed an issue where Mandiant Advantage sign in timed out when a user tried to sign in through the Threat Profile page. Added a validation to check if the user is logged in and not to render the Threat Personalization component directly.
- Fixed an issue where the dashboard widgets in manage dashboards were not visible.
